ENCLOSURES (NO. & TYPE)

REMARKS

25X1 1. Thirty-five Pe-2s were parked in front of the hangars of the Werneuchen (N 53/V 06) airfield. One hangar was open and apparently empty while four hangars were closed. There was no flying at the field from 8 a.m. to 6 p.m. Two Pe-2s which came from the direction of Strausberg (N 53/V 15) circled the field at about 11:45 a.m. *

2. A railroad shipping label, found at the field on 28 June 1950, read as follows:

*Shipment of special gasoline from Boehlen to Velten
(N 53/Z 66) [] * **

25X1

Wrecker [] seen at the field.

* [] Comment. To date, two bomber regiments equipped with about 80 pe-2 type aircraft have been estimated to be stationed in Werneuchen. This report does not make it clear whether these two regiments are still there or whether one of them has been transferred. However, since no report on such a transfer has been received, the Werneuchen field is still estimated to be occupied by two bomber regiments. Some of the aircraft were possibly in the hangars.

** [] Comment. [] air force fuel dump in Velten. This dump receives supplies from the U.S.S.R. and the hydrogenation plants in the Soviet Zone of Germany.
